
The mission of The Mediation Center is to create opportunity from conflict.

We offer a safe and neutral environment where people can find workable solutions to community conflict. We provide mediation, supervised visitation, and training to adults, youth, families, businesses, and organizations in Buncombe, Henderson, Transylvania and Polk Counties.

"I think the best thing was the ability to communicate in a safe environment where it was more structured. I felt more heard - and during the process, I learned what I wanted and needed, and was better able to communicate that on behalf of myself and my son." - *Family Mediation Participant*
